Project Objectives (PROB) –

PROB 1	To familiarize the process of working in a group
PROB 2	To inculcate the process of self-learning and research
PROB 3	To study and work with language Python (Flask)
PROB 4	To understand Regular Expression for extracting the data from the text document using Python.
PROB 5	To integrate server-side Python scripting to make the whole project a sense.
PROB 6	To get acquainted with the project management w.r.t. the project at hand.

Project Outcomes (PRO) –

PRO 1	Able to apply knowledge and skill to solve problems in a group
PRO 2	Able to develop interpersonal skills to work as a member of a group or a leader
PRO 3	Able to apply the knowledge of Python for any project related to Machine Learning.
PRO 4	Able to use Regular Expressions to extract any kind of data from any text documents.
PRO 5	Able to integrate web-app and server-side scripting in any project at hand.
PRO 6	Able to apply process of project management for any project related to data science.

AY -2022-23, Semester – EVEN

Title of the Project: Email Monitoring System

Project Group Number/ ID:

Project Guide: Prof. Atiya Kazi

Week No.	Planned Activity	Details of Implementation
1	Exploring Python Libraries	Exploring python Libraries which can be useful for our project.
2	Use of text extraction libraries	Using various text extraction libraries.
3	Combining code	Combining all code snippets.
4	Testing second stage	Testing overall code of project.
5	Working on ML	Using a teachable machine to train data set
6	Analyzing & Testing	Analyzing and testing of project
7	Testing the final system	Applying all the test cases to see system is working properly.
8	Copyright application	Filling application for copyright.
9	Paper publication	Publishing paper on Journal of Basic Science paper publication Platform.
10	Creating Blackbook	Creating final layout of the blackbook.
11	Final Presentation	Preparing for the final presentation of the project.
